

Capture the Oils

Game Rules:

1. Choose a partner.
2. Take turns connecting 2 dots with a line (horizontally or vertically). If you form a box, you get to keep going until you can't form another one!
3. Try to capture more oil bottles than your opponent by forming a box around them. Initial which boxes are yours as you make them. The player who puts the last "wall" up to complete the box owns the box.
4. The game ends when the last dots are connected and oils taken. Whoever has the most boxes wins!
